Threads

Date
Page No.

```
class Thread1 implements Runnable {
    String name;
    Thread t;
    int time;
    Thread1(String threadname, int time)
    {
        name = threadname;
        this.time = time;
        t = new Thread(this, name);
        System.out.println("Thread" + t);
        t.start();
    }
    public void run() {
        try {
            for (int i = 5; i > 0; i--)
            {
                System.out.println(name);
                Thread.sleep(time);
            }
        } catch (InterruptedException e) {
            System.out.println(name + "Interrupted");
        }
        System.out.println(name + "Exiting");
    }
}
```

P.T.O.

```
class Lab 9 I
{
    public static void main(String args[])
    {
        Thread t1 = new Thread ("BMS  
college of Engineering", 10000);

        Thread t2 = new Thread ("Computer  
Science & Engineering", 2000);
    }
}
```
